

ASSESSMENT OF PHENOMENA

Name: _____ Date: _____

City / State: _____

This is to help us determine what qualities to assign your perceptions. When there's more than one witness, it helps us determine whether all witnesses perceive similar things.

INSTRUCTIONS: CIRCLE those items on the list that seem to RELATE to the ghost's activity or intent. CROSS OUT any terms that are OPPOSITE to what you think relates to the ghost or presence. Those terms that are not applicable can be left alone.

Feel free to add any more descriptive adjectives that might relate to the activities the impressions or presence or ghost might be carrying out, or that you can associate with accompanying personality, behavior or emotions.

Add any comments you'd like after those terms that do relate (or on the reverse). Please note any feelings, physical sensations, or sights, sounds, smells that you personally get when the presence is around or when "things happen."

- | | |
|----------------------|------------------------------------|
| Afraid | Dancing |
| Angry | Depressed |
| Annoying someone | Eating |
