

Professor Paranormal

Tongue in Cheek Entertainment for the Mind!

The World of the Paranormal is extremely popular these days. Even skeptics are fascinated by presentations of “psychic powers” – though they may not believe them.

Professor Paranormal, Loyd Auerbach, is able to deliver top level entertainment with a paranormal theme, all the while never taking himself – or his subject – too seriously.

He engages, enthralls and entertains his audience with demonstrations of what appear to be psychic abilities. He'll **read the thoughts** of audience members, **make predictions** of items freely chosen by volunteers, **influence actions** of helpers, **move objects** with his bare mind, and perhaps **contact a few spirits** (or at least leave the audience in good spirits).

This show can be adapted for any size group, from his specialty -- the intimate dinner party -- to large scale corporate and college events. In general, the show runs an hour, but timing is up to you! Loyd will work with you to make sure your Professor Paranormal experience suits your audience, venue and time requirements – and to make your event truly out of this world!

Liven Up All Your Events with real-life X-Files!

Loyd Auerbach -- actually one of the World's leading experts on Ghosts and Psychic Experience -- is Director of the Office of Paranormal Investigations, a Professor at JFK University, and author of seven books on the Paranormal.

He served as President of the Psychic Entertainers Association from 2001-2005.

His blend of humor, story-telling, showmanship and skills in the mentalist arts grabs his audiences by the roots of their Minds, often playing on their Sixth Sense: The Sense of Humor!
